Tomorrow 30th Thursday: Robotics lab visit and discussions around at Peckham
by Kayalvizhi Jayavel – 29/05/24

Hi class

Tomorrow **30th Thursday, we will be meeting at Camberwell Peckham campus around 9:30 am** as part of activity of the unit.

Address to reach:

University of the Arts London, Camberwell College of Arts, 45-65 Peckham Rd, London SE5 8UF

https://g.co/kgs/z3FkUVF

Assemble in class room: PR_B501E

The agenda would be

1. 9:30 to 10:00: Briefing
2. 10:00 to 11:00: Robot Lab visit
3. 11:00 to 11:30: Lecture by Hooman
4. 11:30 to 12:30: Briefing about resources(pcomp, 3D, soldering spaces, how students from Holborn can use the space if they wanted to use the resources for their future projects etc.,) by @Peter Mackenzie or any one from Tech team based on their availability and possibility. Also a tour around if that is feasible, without disturbing people around.
5. **Also we** (Evan and me) **are also working to conduct your afternoon PM classes in the same venue (Peckham), but this is still not confirmed though, In whatever case, you would still be given enough time to commute back, if we are unsuccessful in getting a room there at Peckham. But will intimate you on this once again when we sort this before EoD. Hope you appreciate.**

I had requests for tutorials on Thursday, don't worry, we can definitely have as many as you need as we can do it any day after Thursday, as this opportunity I don't want you to miss, as it would give a different experience and possibility to know what people do, to cowork on projects and of course inspire.

If we don't push ourselves, there is no growth. Looking forward for your cooperation to help you grow.

If you are unable to come, please mail me with the reason as why you cannot make it.
